PRESIDENT'S REPORT:

President Heineman reported the following:

- As an important part of the special events planned to celebrate the Inauguration of the Fourteenth President of Framingham State College, the practice of Senior Investiture was reinstated and held on Wednesday, March 22, 2000. The ceremony was well attended by seniors, their families, and members of the College community. The program included an

historical presentation of Framingham State College's 161-year history. Keynote speaker Dr. Paula M. Rooney, President of Dean College and a graduate of the Class of 1973, gave an outstanding address, complimentary of the quality education she received in public higher education. In closing, she wished all seniors fond memories – memories that are as wonderful as hers, and received a standing ovation from all those in attendance.

The Program also included greetings given by Class President and Student Trustee Cherity Berryann and Trustee and Director of Alumni Affairs Marilyn Foley. The ceremony was very well received, and seniors were presented with a "Class of 2000" pin as a gift from the College.

- The new millennium edition of the "Echo" and "Excellence" has been printed and distributed. Special thanks are given to Dr. Margaret Storch and Alumni Association Director Marilyn Foley for their efforts in highlighting the College and Alumni Association in the outstanding millennium publication.
- Collective bargaining negotiations with the MSCA (faculty) contract remain unsettled. Meetings continue to be held, and it is hopeful that a settlement can be reached expeditiously.
- In keeping with the fund raising goals of the Campaign for Framingham State College, meetings are underway with a team of members from the Foundation, Board of Trustees, Alumni Association and College staff in an effort to raise \$400,000 by June 30, 2000. With the monies received from the Foundation, two planning and management consultants have been hired to oversee the Campaign. Official announcement of the Campaign will be made at the March 24, 2000 Presidential Inauguration.

President Heineman thanked members of the Board for their support and asked for their continuing assistance in providing additional names of businesses and organizations to be contacted by the Campaign.

Members of the Board were advised there was a conflict between the May 18, 2000 Meeting of the Framingham State College Board of Trustees and the Senior Odyssey Cruise Ball. After discussion,

ACADEMIC AFFAIRS REPORT:

Massachusetts Teacher Test Update. Acting Vice President for Academic Affairs Arthur Doyle updated Trustees on the January 2000 Massachusetts Teacher Test results. Dr. Doyle stated that the test results are positive, with an 85% passing grade for students taking the subject matter tests, and more importantly an increase from 71% to 83% passing grade for students taking all three tests.

Introduction of Tenure Candidates. Dr. Doyle stated that he was pleased to introduce three outstanding faculty candidates who are being recommended to the Board for tenure this evening.

- Dr. Ellen Zimmerman began her services in the Sociology Department as a visiting lecturer in the fall of 1990, then was appointed as a full time temporary member in the fall of 1993, and proceeded into a tenure track position in the fall of 1995. Dr. Zimmerman has a Ph.D. in Anthropology and Linguistics, and brings 3 1/2 years of fieldwork experience from India to her classroom teaching. She serves on the Advisory Board of the Collegiate Press for books on 'Cultural Anthropology', and is very instrumental in establishing the Human Rights Action Committee.
- Dr. Ben Snyder earned his Ph.D. in Biology, and began his services in the Biology Department in 1995. Dr. Snyder is the author of many research publications, and has been awarded three patents. His research interests include Endocrinology, Developmental Biology and Creation of Transgenic Animals. Dr. Snyder's most recent research, with Genzyme Corporation, involves the use of gene therapy to develop a genetic treatment for hemophilia in which undergraduate students perform some of the lab procedures necessary to isolate the targeted genes. Dr. Snyder's students are fortunate to have the opportunity to share in his extraordinary work, and to be a part of cutting edge gene therapy research.
- Dr. Eugene Muller has Master's degrees in Marine Biology and Medical Technology, with a Doctorate degree in Microbiology. A member of the Biology Department since 1996, Dr. Muller's research interests include Molecular Biology of Bacterial Activity, Immune Responses to Bacteria Virulence, and Microbial Ecology. He has several publications on the various aspects of Staphylococcus Epidermis, as well as other bacteria. He frequently collaborates with colleagues from Japan, Germany, North Carolina, Tennessee, and locally with Brigham and Woman's Hospital and Harvard Medical School. Dr. Muller also includes and actively recruits Biology majors to engage in research projects.

Dr. Doyle stated that Drs. Zimmerman, Snyder, and Muller are all superb classroom teachers who devote a great deal of energy to organizing their courses, preparing class materials, and challenging their students intellectually. They are always available for their students who are very fortunate to have them as instructors as we are to have them on our faculty.

Drs. Zimmerman, Snyder, and Muller received a round of applause by all in attendance.
